Institutional Effectiveness Annual Unit Plans Assessment Handbook

FY 2016-2017

Institutional Effectiveness Annual Unit Plans 2016-2017

The focus of this document is on the implementation and assessment of RPCC Institutional Effectiveness (IE) Annual Unit Plans. “Institutional effectiveness is the systematic, explicit, and documented process of measuring performance against mission in all aspects of an institution.” (SACS/COC resource Manual). RPCC Unit Plans are developed to provide a roadmap for a systematic and ongoing process of collecting information to improve the overall effectiveness of the institution. The plans are grounded in the college mission of providing quality education to its students and, is guided by both the RPCC Strategic Plan and the Louisiana Community College System (LCTCS) LA Goals 2020.

Relationship between RPCC IE Strategic Plan and Louisiana Community and Technical College (LCTCS) Strategic Plan, LCTCS LA 2020 Goals, and RPCC Annual Unit Plans

RPCC IE Strategic Plan and institutional effectiveness assessment are both aligned with the college vision, mission and core college initiatives. There is often a symbiotic relationship between the two with commonly shared goals and, sometimes, assessment itself can become a strategic goal. However, institutional effectiveness planning is fundamentally different from strategic planning. While strategic planning is focused on repositioning the institution, institutional assessment is focused on the effectiveness and efficiency of institutional services and programs. It is outcomes oriented with the focus on continuous quality improvement. Unlike strategic planning, assessment planning does not end once an action item is completed; it continually revitalizes itself through reflection, reevaluation and renewal.

RPCC Annual Unit Plan goals and objectives are aligned with the College Mission “*River Parishes Community College is an open admission institution that partners with the communities and businesses of the river parishes region of Louisiana to provide workforce training, certificates and diplomas and associate degrees*”, which includes the Core College Initiatives located in the RPCC IE Strategic Plan. In addition, the annual unit plans are aligned with the LCTCS Strategic Plan and Louisiana 2020 goals. The College’s Annual Unit Plans involves administrators, faculty, and staff input from each of the college’s administrative support unit including Academic Affairs, Finance and Administration, Institutional Advancement (Foundation)/Public Relations, Student Services and Workforce Development.

RPCC IE annual unit plan assessment is based on the unit plan implementation activities including, objectives, action steps, results, supporting documentation and improvements achieved. Data is collected to rate the results and inform the annual work plan for the coming year. In addition, assessment data are used to monitor how the five-year IE Strategic Plan is progressing. The products of the assessment are evaluation findings, summaries of how the strategic plan is progressing, and description of changes to program activities based on evaluation finding.

This assessment framework has been developed by the Office of Institutional Research and Effectiveness using various effectiveness models available in the assessment field. The following pages provide the guiding principles, description of assessment process flow, operational structure, a general timeline for implementation, a protocol for assessment, indicators for measuring effectiveness, and a sample list of assessment activities.

VISION:

As the premier post-secondary learning resource for the River Parishes, River Parishes Community College will be the destination of choice for education.

MISSION STATEMENT:

River Parishes Community College is an open admission institution that partners with the communities and businesses of the river parishes region of Louisiana to provide workforce training, certificates, diplomas, and Associate Degrees.

CORE COLLEGE INITIATIVES:

RPCC serves its constituents through the following Core College Initiatives. These Core College Initiatives are central to the College's strategic planning and data are collected, reported, and are used in RPCC's continuous improvement processes. These Core College Initiatives are:

1. **Access** - Identify, assess, and meet community needs to promote and increase open access to the College.

Provide students with appropriate education, training, and student services at moderate cost, convenient times, and accessible locations to increase their success in certificate, diploma, associate or baccalaureate studies or in the State's workforce.

2. **Student Success** - Enhance the quality of academic instruction through a continued focus on student learning outcomes assessment; and,

Create campus environments that encourage better-quality learning experiences that reinforce the value of cultural and economic diversity, mutual respect, and each person's ability to become a more productive Louisiana citizen.

3. **Teaching Excellence** - create a campus culture that values teaching and learning and actively involves faculty in this process.

4. **Innovative Academic and Technical Education Programs**- identify educational and workforce programming needs in an ongoing manner of the region and offer programs to address those needs.

Develop responsive, innovative education, training, and learning resource programs that prepare Louisiana citizens for immediate employment or transfer to two and four-year colleges and universities.

5. **Partnerships** - Strengthen mutually beneficial partnerships with secondary and other postsecondary institutions, business and industry, government agencies, economic development entities, and community-based organizations that leverage resources to expand educational opportunities for current and future students.

6. **Fundraising** - Develop new funding streams through annual, major gifts and capital campaigns through the RPCC Foundation and successfully apply to appropriate federal, state, and private grant programs to significantly enhance the mission and vision of the College.

7. **Resources** - Attract, recruit, retain and support exemplary faculty and staff; effectively manage resources allocated by the State for capital and operational expenses to support the mission of the College; and, make effective use of new and emerging technology to improve teaching and learning in the College's classrooms, laboratories, and telecommunication networks.

8. **Workforce Development** - Take a leadership role in economic development by providing student-centered workforce education and training in collaboration with local employers that strengthens the region's economy and workforce competitiveness.

Supply Louisiana's business and industry with a well-educated, highly skilled workforce capable of improving the State's competitive advantage within the United States and throughout the global economy.

UNIT PLAN PLANNING PROCESS:

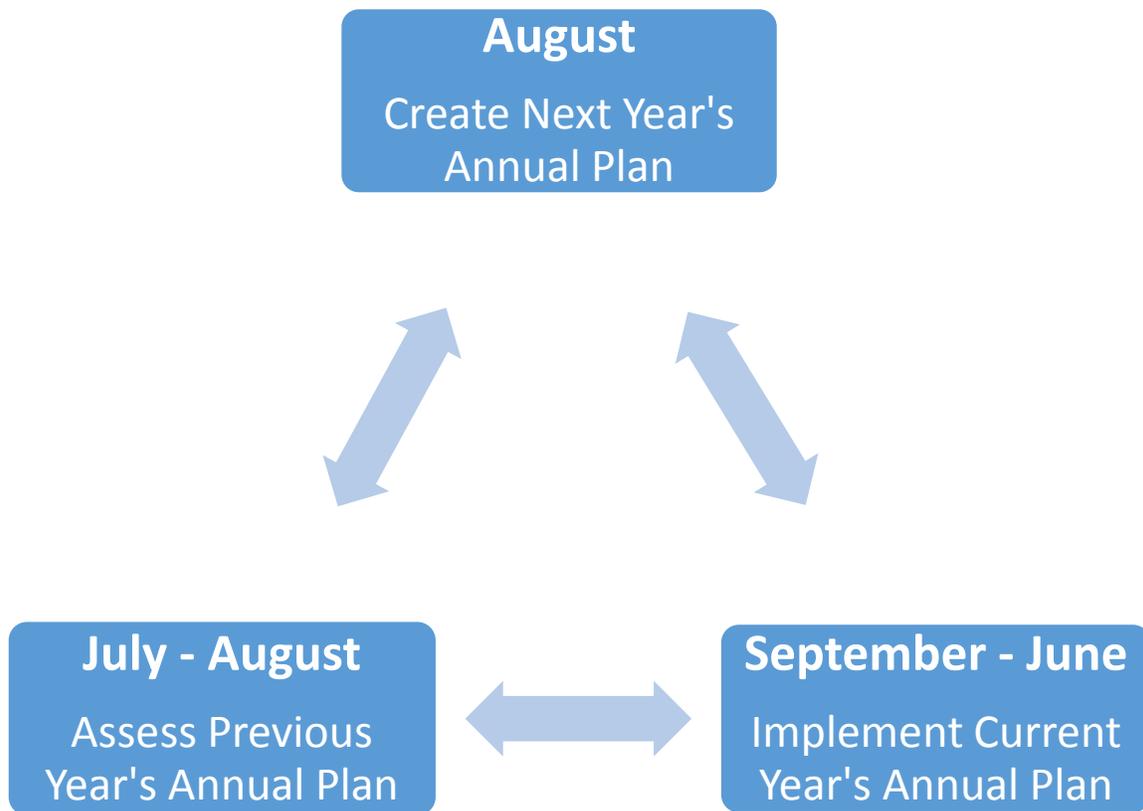

The faculty, staff and administrators are all involved in the planning process. Each department sets annual assessment plans using the LCTCS and RPCC Strategic plans. These annual administrative unit plans are collected and assessed each year, using the Deming Cycle Model for planning and assessment. The results are evaluated for improvement and action, as planning is set in motion for the next year's cycle.

The Deming Cycle model involves a systematic series of steps. This PLAN-DO-STUDY-ACT cycle provides RPCC a systematic process for institutional effectiveness and improvement. The concept and application also known as the Deming Wheel was first introduced to Dr. Deming by Walter Shewart of the Bell Laboratories in New York and the NHS Institute for Innovation and Improvement.

The cycle begins with the Plan step. This involves identifying a goal or purpose, formulating a theory, defining success metrics and putting a plan into action. These activities are followed by the Do step in which the components of the plan are implemented, such as making a product. Next comes the Study step, where outcomes are monitored to test the validity of the plan for signs of progress and success, or problems and areas for improvement. The Act step closes the cycle, integrating learning and improvement into the entire process. In this final step, adjustments, changes, and new plans are created. These four steps are repeated over and over as part of a never-ending cycle of continual improvement (The W. Edwards Deming Institute). www.deming.org/theman/theories/pdsacycle

OBJECTIVE/STRATEGY	Strategy is either not stated clearly or is too general for focused practice.	Strategy is partially focused on outcome. More emphasis is needed in describing the techniques that will be practiced.	Strategy is stated, but lacks descriptive language to inform the reader of qualitative and/or measurable criteria.	Strategy is clear and understandable, qualitative and/or measurable and can be reasonably achieved within a calendar year
RESULTS	Results are incomplete and /or summaries are not tied directly to result.	Results are too general and do not prove whether targets were met, partially met or not met.	Results have been collected and compiled into a form fit for analysis.	Results have been collected, compiled and analyzed.
SUPPORTING EVIDENCE (METHOD OF ASSESSMENT)	Supporting evidence has incomplete summaries or summaries that are not tied directly to results	Supporting evidence provided but does not connect progress to strategy.	Supporting evidence is partly measurable because the evidence does not clearly indicate progress.	Supporting evidence provides substantial details that targets were met, partially met or not met for all assessment measures including rubrics, surveys, tables, charts, etc., as appropriate.
IMPROVEMENTS ACHIEVED (PROGRESS)	Departmental achievements do not tie analysis of results to improvements.	Departmental achievements describe very general improvements; specific details are not provided and does not describe “next steps” to improve learning outcomes or departmental services.	Departmental achievements look at the results and has documented discussion about the impact of results on the department and the direction the department should go.	Departmental achievements discuss the results and makes changes or comes to conclusions within the department based on subsequent results.
